**Press Release Addressing Recent Reports Regarding The Cargo Industry**

Over the past several days, there have been media reports related to possible illegal price fixing in the air cargo industry by over a dozen major airlines based in multiple countries. In connection with this matter, on February 14, 2006, U.S. federal agents visited our New York office and interviewed one of our employees. In addition, this employee was handed a “subpoena to testify before a grand jury,” the primary purpose of which is to require us to produce documents to the Department of Justice. Furthermore, we understand that, on February 17, 2006, a purported class action law suit related to possible illegal price fixing in the air cargo industry was filed against 22 airlines, including us, by a purported class of purchasers of air cargo services.

We are currently in the process of collecting further information with respect to these events and determining what actions, if any, to be taken.
