## **Notice Regarding Issuance of New Shares and Offering of Shares**

All Nippon Airways Co., Ltd. (the “Company”) hereby announces that its board of directors has resolved matters relating to the issuance of its new shares and the secondary offering of shares at a meeting held on July 1, 2009, as set forth below.

### **1. Purposes of Offering**

Our Group has aimed to expand the growing business areas of the international passenger operations and the cargo operations pursuant to “2008-2011 Mid-Term Corporate Plan” announced in January 2008.

However, as we face sharp declines in customer demand due to the global recession and the business environment surrounding us has become extremely challenging, we revised the January 2008 plan and announced the “ANA Group Mid-Term Corporate Policy” in January 2009 that we are currently implementing. Under the new Mid-Term Corporate Policy, we are taking appropriate measures to respond to the sharp worsening of the business environment, and by taking advantage of the increase in flight slots at both Haneda and Narita in 2010, we plan to take our business on a path towards growth.

We believe the public offering will enable us to steadily implement the Mid-Term Corporate Policy by improving our financial condition while facilitating strategic investments in aircrafts centering on the Boeing 787. By doing so, we continue our efforts in realizing our ultimate goal of becoming the number one airline group in Asia by capturing the business opportunities provided by the increase in flight slots at the Tokyo metropolitan airports in 2010 and striving to maintain and improve the high quality services provided by our air transportation operations.

1. The Offering by way of Over-Allotment, etc.

The Offering by way of Over-Allotment in “3. Secondary Offering of Shares (Offering by way of Over-Allotment)” above is a secondary offering in Japan to be made in conjunction with the Japanese Public Offering in “2. Issuance of New Shares by way of Public Offering” in an amount not to exceed 37,500,000 shares, that will be borrowed by the Japanese Lead Manager for the Japanese Public Offering from certain shareholder(s) of the Company (the “Borrowed Shares”) taking into account market demand for the offerings and other conditions. The number of shares in the Offering by way of Over-Allotment indicates the maximum number of shares to be sold, and depending on market demand and other conditions such number may decrease, or the Japanese Over-Allotment may be cancelled.

In connection with the Japanese Over-Allotment, the Board of Directors of the Company has resolved, at the meeting held on July 1, 2009 (Wed), that the Company will issue 37,500,000 shares of its common stock necessary to return the Borrowed Shares to the certain shareholder(s), by way of third-party allotment (the “Third-Party Allotment”) to the Japanese Lead Manager with the payment date for the set to be August 18, 2009 (Tues).

Furthermore, the Japanese Lead Manager may also purchase shares of common stock of the Company on the Tokyo Stock Exchange, Inc., up to the number of shares to be offered in the offering by way of Over-Allotment (the “Syndicate Cover Transactions”). Shares of Company common stock purchased through Syndicate Cover Transactions shall be used to return the Borrowed Shares. Such Syndicate Cover Transactions would be made during the period beginning on the date immediately following the last day of the Subscription Period and ending on August 11, 2009 (Tues) (the “Syndicate Cover Transaction Period”). During the Syndicate Cover Transaction Period, the Japanese Lead Manager at its discretion may not conduct any Syndicate Cover Transactions or may

The securities referred to above have not been, and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”). terminate any Syndicate Cover Transactions before the number of shares purchased reaches the number of shares offered in the Offering by way of Over-Allotment.

The Japanese Lead Manager may conduct stabilizing transactions as it conducts the Japanese Public Offering and the offering by way of Over-Allotment. The shares of common stock of the Company purchased through such stabilizing transactions may be used, in whole or in part, to return the Borrowed Shares.

The Japanese Lead Manager plans to accept the allotment under the Issuance of New Shares by way of Third-Party Allotment of an equivalent number of shares of common stock of the Company obtained by deducting (a) the number of shares purchased through stabilization transactions and Syndicate Cover Transactions that are to be used to return the Borrowed Shares, from (b) the number of shares to be offered in the Over-Allotment. Accordingly, all or a part of the shares to be issued under the Issuance of New Shares by way of Third-Party Allotment may not be subscribed for, which may result in a decrease in the maximum number of shares planned to be issued under the Issuance of New Shares by way of Third-Party Allotment, or in the cancellation of the entire issuance due to forfeiture.

The above transaction shall be made by the Japanese Lead Manager in consultation with the Japanese Joint Lead Manager.
