

100,000 passengers carried on ANA's Boeing 787 Dreamliner

TOKYO January 13, 2012 - ANA, Japan's biggest airline and the launch customer for the Boeing 787 Dreamliner, will this weekend celebrate carrying more than 100,000 passengers on this innovative airliner since services began two months ago.

ANA expects to reach the passenger landmark when Flight NH686 takes off from Hiroshima airport bound for Haneda on Sunday, 15 January.

The success of the Dreamliner, which entered service with ANA on two domestic routes on 1 November last year, is further underlined by the very high number of seats being filled on the routes being flown by the 787.

Load factors on ANA's 787 routes to Okayama and Hiroshima have reached approximately 88%, compared to 72.2% for all ANA services operating between Haneda and these two destinations and 67.7% over the same period a year earlier.

ANA, which has ordered a total of 55 Dreamliners, will launch its first scheduled international routes using the 787 this month, with services commencing to Beijing on Saturday, 14 January and to Frankfurt on 21 January.

The inaugural Dreamliner flight from Haneda to Frankfurt is almost full and reservations for the rest of January are currently at the high rate of 78.8%. ANA will initially operate three Dreamliner services a week to Frankfurt and will trial the 787 on the Tokyo-Beijing route during January.

The reliability of the 787 has been as impressive as customer demand with 96.3% of scheduled Dreamliner departures having left on time compared to an ANA group average of 96.5% for the same period.

ANA's services by Boeing 787

About ANA Group

All Nippon Airways (ANA) is the ninth largest airline in the world by revenues and the largest in Japan by passenger numbers. Founded in 1952, it flies today to 78 domestic and international cities in a fleet of 228 aircraft serving a network of 163 routes. ANA has 33,000 employees and operates about 1,000 flights a day. In 2010, it carried 43 million passengers and generated revenues of \$16bn. ANA has been a core member of Star Alliance since 1999 and more than 20 million members belong to its Frequent Flyer Program (ANA Mileage Club). ANA is the launch customer for the world's newest and most advanced passenger aircraft, the Boeing 787 Dreamliner.
