Notification Regarding a Company Split and Amendments to Articles of Incorporation
(Changes of Corporate Name and Business Purpose)
Pursuant to the Move to a Holding Company Structure.

As was announced on February 17, 2012, studies have been ongoing with a view to moving to a holding company structure on April 1, 2013. At the meeting of Board of Directors of our company (hereafter referred to as the "Company") held on May 15, 2012, it was resolved that all business in which the Company is engaged (excluding, however, businesses regarding control or supervision of the companies in which shares are held by the Company and businesses regarding group management; hereafter referred to as the "Business") should be transferred by means of a company split to ANA HOLDINGS INC. (the corporate name is scheduled to be changed to ALL NIPPON AIRWAYS CO., LTD. on April 1, 2013; hereafter referred to as the "Successor Company"), which is a wholly-owned subsidiary of ALL NIPPON AIRWAYS CO., LTD. An absorption-type split agreement was signed on the same day between the Company and the Successor Company (such absorption-type company split shall be hereafter referred to as the "Absorption-type Company Split"). The effective date for the Absorption-type Company Split shall be April 1, 2013.

The Absorption-type Company Split and the amendments to the Articles of Incorporation (changes of corporate name and business purpose) are conditional on the related agenda items being approved at the 67th Ordinary General Meeting of Shareholders scheduled to be held on June 19, 2012 and on any necessary approvals being granted by the relevant governing authorities.

Subsequent to the Absorption-type Company Split, as of April 1, 2013, the corporate name of the Company shall be changed to ANA HOLDINGS INC., and its business purpose shall be revised to be in line with the move to a holding company structure.

Please note that since the Absorption-type Company Split entails absorption into a company that is a wholly-owned subsidiary, a portion of the disclosure items and other details are omitted from the following disclosures.

I. Absorption-type Company Split Pursuant to the Move to a Holding Company Structure

1. Background and Objectives of the Absorption-type Company Split

Japan's airline industry is facing a major transition period, including the expansion of airport capacity in Metropolitan Tokyo, further moves toward deregulation of airline industry, the inauguration of a wave of new Low Cost Carriers (LCCs) and increased competition from other modes of transport and carriers elsewhere in Asia. In order to respond speedily to the changes, and to further achieve the goals set forth in its recently established FY2012-13 ANA Group Corporate Strategy, the Company has decided to shift to a holding company structure, with transferring the Business to the Successor Company by the Absorption-type Company Split, which may be the optimal organizational structure for building a multi-brand strategy between the existing ANA brand

and the new LCC brand. And the purposes of the shifting are to strengthen Group's management and to enable autonomous management of each of its Group companies.
