Expanded in-flight entertainment.

Making your air travel more enjoyable and more cutting-edge.

Answering customers' values and needs as they change with time and the environment, we are proposing a new way of spending time on board with the concepts of "Reading in the Sky," "Learning in the Sky," and "Appreciation in the Sky".

Reading in the Sky

Our e-library service, where customers can use the ANA app on their own devices to read the in-flight magazine, magazines, and newspapers has become more enriched, as it now includes features such as the travel guidebook "Rurubu".

Note: The newspaper service is limited to some customers.

Please check our official website for more details.

Learning in the Sky

We have started a tie-up project with "HOBONICHI SCHOOL" which provides a place for learning online using apps and other methods. You can watch nine member-only episodes released monthly. This is Japan's first "inflight school", where you can learn from people you wouldn't normally meet by listening to their various experiences and moving stories. Please avail yourself to this unique opportunity.
