The fare shall not be less than the lower amount obtained by either of the following principles:

 - (i) Mileage principle
 - (aa) total ticketed points mileage (tpm) shall be compared with the maximum permitted mileage (MPM) for the fare component.
 - (bb) Routings within MPM: where the sum of the TPMS does not exceed the comparable MPM, apply the applicable direct route fare.

(bb) Lowest combination principle: except as provided in other fare construction rules, lowest combination principle applies.

(3) Limitations on direct travel

a fare component must not include more than one departure from origin or more than one arrival at destination or more than one stopover at any intermediate ticketed point.

(a) A fare component within area 1 or within area 3/1 must not include more than one arrival and one departure at any ticketed point.

(b) For travel originating in area 1, no fare component within area 1 may include more than one international departure and one international arrival at any ticketed point in the country where travel originates.

- (b) In case of normal fare travel, where the mileage for an international surface break is greater than the ticketed point mileage over the routing travelled from origin to the point of commencement of surface break is not included in the through fare, the journey from origin up to the surface break will be ticketed separately, the remainder of the journey being assessed in accordance with fares other than round or circle trips.
 - (c) In the application of (b) above, the surface break shall be measured using ticketed point mileages; if no ticketed point mileage exists for the points concerned, the shortest operated mileage shall be used (i.e. MPM divided by 1.20), provided, in the event there is no shortest operated mileage, the ticketed point mileage shall be established by a combination of ticketed point mileages. for the purpose of this rule, surface sector tpm breaks between Canada and the U.S.A. may be ignored.
- (5) Higher intermediate fare (normal fares)
- (a) If any routing otherwise permissible at the direct route normal fare there is a direct route normal fare(s) of the same class of service between any two ticketed points which is higher than the direct route normal fare between the fare construction points, the fare shall be not less than the highest fare referred to above (higher intermediate fare). in the case of fares that are established by seasonality, day of week, or flight application, the check will be based on the applicable fare by seasonality, day of week, or flight application.
 - (b) If in any indirect routing otherwise permissible at the direct route normal fare plus a percentage, there is a direct route normal fare(s) of the same class of service between any two ticketed points which is higher than the direct route normal fare between the fare construction points, the fare for the indirect route shall be not less than the highest fare referred to above (higher intermediate fare), and the surcharge percentage applicable to the through fare shall be applied to such higher intermediate fare.
 - (c) In applying hip checks, the sectors to be checked shall be
 - (i) From fare component origin to each intermediate stopover point
 - (ii) From each intermediate point to each subsequent intermediate stopover point.
 - (iii) From each intermediate stopover point to the subsequent fare break point.
 - (d) when comparing normal fares of the "same class of service" in order to determine if

 - (i) The applicable fare between the fare construction points
 - (ii) The fare from the origin point of the fare component to the highest rated intermediate stopover point plus the difference between such fare and the through fare from the point of origin to the destination point of the fare component.
- (8) Mixed class construction

 - (a) Special fares must not be used in mixed class differential calculations.
 - (b) The application of this paragraph shall not be used to circumvent any stopover/transfer restriction applicable to the through fare for the lowest class of service used.
 - (c) The differential is assessed in the same

- direction as the fare used for the lowest class of service.
- (d) When half round trip fares are used the differential is assessed using half round trips fares. When one-way fares are used the differential is assessed using one-way fares.
 - (e) Class differential calculation is only subject to hip checks.

 - (i) The difference between the lower class fare for the sectors flown in the higher class and the fares for the higher class of travel on those sectors.
 - (ii) The difference between the applicable fare for the fare component in the lower class and the applicable fares for the fare component in the higher class of service.
 - (b) For consecutive sectors within a fare component travelled in a higher class of service, the differential shall be the lower of the following;
 - (i) The difference between the lowest applicable fare for the lowest class of service used and the lowest applicable fare for the higher class of service used.
 - (ii) Lowest applicable through fare for the lowest class used for the

- sectors concerned and the lowest applicable through fare for the higher class used for such sector.
- (4) An entire fare component in a higher class if the calculation in the lower class of travel established that mixed class sectors constitute an entire fare component, the differential shall be the difference between the applicable for the lower class of travel for the fare component and the applicable fare for the higher class or travel for the fare component.
 - (5) An entire pricing unit in a higher class
 - (a) If the calculation in the lower class of travel establishes that mixed class sectors constitute an entire pricing unit, the differential shall be the difference between the applicable fare for the lower class of travel for the pricing unit and the applicable fare for the higher class or travel for the pricing unit.
 - (b) In applying this methodology the resultant level will only be applies if it gives a lower level than other calculation
 - (9) Exchange, reissues and refunds

Rule 600 Flights to, from and within Canada, including connecting flights

Application of Rule 600- Rule 600 has been adopted pursuant to the APPR. The provisions of Rule 600 are applicable only to services provided in connection with scheduled flights to, from and within Canada, including connecting flights, by NH.

(1) Flight Delays, Cancellations, and Denial of Boarding

where a flight is delayed, cancelled or where a passenger is not permitted to occupy a seat on board a flight because the number of seats that may be occupied on the flight is less than the number of passengers who have checked in by the required time, hold a confirmed reservation and valid travel documentation and are present at the boarding gate at the required boarding time (a "Denial of Boarding") (flight delays, cancellations and Denial of Boarding are collectively referred to as a "Flight Disruption"), passengers may be entitled to specific standards of treatment, rebooking or a refund, and compensation as set out in (4)(B) and (C) here. The following is a summary of our terms and conditions in cases of a Flight Disruption.

(A) Notifying passengers of a known Flight Disruption

To keep our passengers informed during a Flight Disruption we will provide affected passengers with the following information, based on the information available to us:

- (i) The reason for the Flight Disruption;
- (ii) The compensation to which the passengers may be entitled for the inconvenience (if applicable);
- (iii) The standard of treatment for passengers (if any); and
- (iv) The recourse available to passengers against NH, including their recourse to the Canadian Transportation Agency.

We strive to provide our passengers with new information as soon as feasible and will provide status updates every 30 minutes until a new departure time is set for the flight or alternative travel arrangements have been made pursuant to (1)(B) here.

(B) Providing services to minimize inconvenience

Alternate Travel Arrangements

In the event of a delay of three hours or more ("Extended Delay"), a flight cancellation, or a Denial of Boarding, we will assist our passengers in rebooking travel to their destination to complete their itinerary as soon as feasible. Specifically:

where the Extended Delay, flight cancellation, or a Denial of Boarding occurs for reasons outside of our control as defined in the APPR and described below, we will provide our passengers, free of charge, with:

- (i) a confirmed reservation for the next available flight that is operated by us or our commercial partners, travelling on any reasonable air route from the airport where the passenger is located to their destination, and

Tariff: NH1 -
Carrier: All Nippon Airways - NH

that departs within 48 hours of the end of the event that caused the Extended Delay, flight cancellation or Denial of Boarding; or if not available;

- (ii)a confirmed reservation for a flight that is operated by any air carrier, travelling on any reasonable air route from the airport where the passenger is located (or another airport within a reasonable distance) to their destination, and if the new departure is at a different airport, transportation to the other airport.

A Flight Disruption is outside of our control if caused by events, including but not limited to, war or political instability, illegal acts or sabotage, meteorological conditions or natural disasters that make the safe operation of the aircraft impossible, instructions from air traffic control, a NOTAM, a security threat, airport operation issues, a medical emergency, a collision with wildlife, a labour disruption within NH or within an essential service provider such as an airport or an air navigation service provider, a manufacturing defect in an aircraft that reduces the safety of passengers and that was identified by the manufacturer of the aircraft concerned, or by a competent authority, or an order or instruction from an official of a state or a law enforcement agency or from a person responsible for airport security.

Where an Extended Delay, a flight cancellation, or a Denial of Boarding, occurs for reasons within our control, (including situations required for safety purposes), we will provide passengers, free of charge, with:
(i)a confirmed reservation on the next available flight that is operated by us or our commercial partners, travelling on any reasonable air route from the airport where the passenger is located to their destination, and that departs within 9 hours of the original departure time; or if not available;

(ii)a confirmed reservation for a flight that is operated by any air carrier, travelling on any reasonable air route from the airport where the passenger is located to their destination, and that departs within 48 hours of their original departure time; or if not available;

(iii)a confirmed reservation for a flight that is operated by any air carrier, travelling on any reasonable air route from an airport that is within a reasonable distance of the airport where the passenger is located to their destination, and transportation to the other airport.

A Flight Disruption is within our control but required for safety purposes where the cause of the Flight Disruption is required by law in order to reduce risk to passenger safety and includes required by safety decisions made within the authority of the pilot of the aircraft or any decision made in accordance with a safety management system as defined in subsection 101.01(1) of the Canadian Aviation Regulations

but does not include scheduled maintenance in compliance with legal requirements.

In accordance with the APPR, we will provide alternate travel arrangements that are comparable to those on the original ticket in case of an Extended Delay, cancellation or Denial of Boarding. If the alternate travel arrangements provide for a higher class of service than the original ticket, we will not charge for the upgrade.

Information about compensation for an Extended Delay or cancellation is described in (4)(C) here.

If the alternate travel arrangements offered do not accommodate our passenger's travel needs, we will (a) in the case where a passenger is no longer at the point of origin indicated on the ticket and the travel no longer serves a purpose because of the Flight Disruption, refund the ticket and if necessary, return our passenger to his/her point of origin; and (b) in any other case, refund the unused portion of the ticket. Passengers who choose to take a ticket refund instead of alternate arrangements may be entitled to compensation in the amount of \$400 (CAD) if their ticket is refunded due to an Extended Delay or cancellation that is within the control of NH (except where the Extended Delay or cancellation is required for safety purposes). In order to receive compensation, the passenger must file a request for compensation with NH within 1 year of the Extended Delay or cancellation.

(C) Denial of Boarding Procedure

Before a Denial of Boarding, we ask passengers to volunteer to give up their seat. If we offer a benefit to our volunteer(s) in exchange for giving up his/her seat, we will provide written confirmation of the benefit before the flight departs.

Where a Denial of Boarding occurs, we will give priority for boarding to passengers in the following order:

- (i) unaccompanied minors;
- (ii) a person with a disability and their support person, service animal, or emotional support animal, if any;
- (iii) a passenger who is travelling with family members; and
- (iv) a passenger who was previously denied boarding on the same ticket.

*The order of priority described above does not apply where the Denial of Boarding was caused by a situation outside of our control.

We will make reasonable efforts not to cause a Denial of Boarding to a passenger who is already on board the aircraft but may do so where it is required for safety reasons.

Information about compensation for Denial of Boarding is set out in (4)(B) here.

(D) Our Contingency Plan for Lengthy Tarmac Delays

Where a flight is delayed on a tarmac at a Canadian airport for three hours after the aircraft doors have been closed for take-off or after the flight has landed, we will allow passengers to disembark the aircraft.

*The following cases are excluded: (1) where it is likely that take-off will occur less than three hours and 45 minutes after the doors of the aircraft are closed for take-off or after the flight has landed and NH is able to continue providing passengers with the services described below; and (2) where it is not possible to provide an opportunity for passengers to disembark, including if it is not possible for reasons related to safety and security or to air traffic or customs control.

When allowing passengers to disembark, if feasible, we will give passengers with disabilities, and their support person, service animal or emotional support animal (if any) the opportunity to disembark first.

For all flights to, from and within Canada, in accordance with the APPR, we will use reasonable efforts to provide convenient and comfortable services to all customers in cases of tarmac delays. Specifically, we will provide passengers with the following, free of charge:

- (i) Access to lavatories in working order;
- (ii) Proper ventilation and cooling or heating of the aircraft;
- (iii) If it is feasible to communicate with people outside of the aircraft, the means to do so; and
- (iv) Food and drink, in reasonable quantities, taking into account the length of the delay, the time of day and the location of the airport.

(2) Lost or Damaged Baggage

We will make reasonable efforts to ensure that all checked baggage is available as soon as possible after a passenger's flight arrives at the gate and to avoid damage to the checked baggage. In the unlikely event your baggage does not arrive at your destination with you, we will initiate a search and make reasonable efforts to return the baggage to you within 24 hours. In the further unlikely event that your baggage cannot be located or your baggage is damaged, we will pay compensation for lost or damaged baggage as required by applicable international agreements and according to our Conditions of Carriage. Moreover, in cases of lost (even temporarily) or damaged baggage, we will reimburse passengers for any fees paid for carrying such baggage.

(3) Assignment of Seats to Children under the Age of 14 Years
 We make every effort to ensure that children under the age of 14 years are assigned a seat in close proximity to their parent, guardian or tutor in accordance with the following chart at no additional cost:

Age of Child	Seating provided
4 years of age or younger	Seat provided will be adjacent to parent, guardian, or tutor
5 to 11 years of age	Seat provided will be in the same row as the child's

	parent, guardian, or tutor and that is separated from the child's parent, guardian, or tutor by no more than one seat or the space of an aisle
12 or 13 years of age	Seat provided will be in a row that is separated from the row of the parent, guardian or tutor by no more than one row.

*Please note that while NH does not charge an additional fee for children to be seated adjacent to their parent, guardian or tutor, NH may still enforce a seat selection fee if applicable.

On some flights, passengers, including children under the age of 14 years, may reserve a specified seat on a flight in advance. NH aims to assign a seat to a child in close proximity to their parent, guardian or tutor before check-in.

- If we are unable to assign a child a seat in close proximity to their parent, guardian or tutor, we try to assign seats:
- (i) At the time of check-in, if possible;
 - (ii) By asking for volunteers to change seats at the time of boarding; and
 - (iii) By asking for volunteers to change seats before take-off.

We will make every effort to ensure that children under the age of 14 years are assigned a seat in close proximity to their parent, guardian or tutor.

(4) Information on treatment, compensation, refunds and recourse

(A) Providing services to minimize inconvenience resulting from a Flight Disruption

We make every effort to ensure our flights operate on time and passengers are not denied boarding. However, in case of a Denial of Boarding and in the case of a delay or cancellation where passengers are informed of the delay or cancellation less than 12 hours before the departure and have waited two hours after the original departure time, we will provide the following treatment, free of charge:

- (i) Food and drink in reasonable quantities, taking into account the length of the wait, the time of day and the location of the passenger; and
- (ii) Access to a means of communication.

*The following cases, however, are excluded: (1) where providing the services above would further delay the passenger; and (2) where the Flight Disruption was due to "situations outside the carrier's control" as defined in section 10(1) of the APPR (described above in (1)(B) here).

ANA will provide overnight accommodations (hotel or comparable) including round trip transportation from the airport to the hotel or other accommodation, if NH expects the passenger will be required to wait overnight for a flight reserved or as part of the alternate travel arrangements, in cases where the Extended Delay, cancellation or Denial of Boarding was within NH's control, including situations required for safety reasons.

(B) Compensation for Denial of Boarding

In the event that a passenger is denied boarding, and the cause of the Denial of Boarding was within our control (excluding situations within our control but required for safety purposes), affected passengers may be entitled to compensation, calculated based on your arrival time at destination, as follows:

Length of Delay	Amount (CAD)
Less than 6 hours	\$ 900
Between 6 and 9 hours	\$1,800
9 hours or more	\$2,400

(C) Compensation for Delay or Cancellation

If a flight delay or cancellation is within our control (excluding situations within our control but required for safety purposes) and passengers have been informed of the delay or cancellation 14 days or less before their original departure time, affected passengers may be entitled to compensation, calculated based on your arrival time at destination, as follows:

Length of Delay	Amount (CAD)
Between 3 and 6 hours	\$400
Between 6 and 9 hours	\$700
9 hours or more	\$1,000

In order to receive compensation, you must file a request for compensation with NH within 1 year of the flight delay or cancellation.

(D) Refunds

ANA will issue the refund to the person who originally purchased the Ticket, using that person's original payment method, in accordance with the provisions of the APPR.
